

LOUVOLITE CLEAR**GUARD**™

A New Transparent PVC Screen

Louvolite brings you a new, low-cost and easy to manufacture PVC clear screen to help maintain contact during these times of social distancing.

Ideal for offices, shops, banks, restaurants and other commercial buildings, Clearguard helps protect against sneezes and virus infections such as COVID-19.

Clearguard is flame retardant to British standards and is offered as three options: a low-cost suspended blind, a roller blind with height adjusting crank or chain control and a panel blind for larger areas requiring protection.

- Low-cost protection and reassurance for all staff.
- Flame retardant fabric to British standards.
- Can be fitted to suspended ceilings.
- Easy to clean with sterilising spray.

All fabrics and components are available now - please call us to find out more information about the Clearguard fabric options and the systems it can be used with. Seize this huge opportunity to help everyone work more safely today with Louvolite Clearguard.
